

University Surgical Associates

Patient Portal

University Surgical Associates patient portal is a secure, confidential, HIPAA compliant communication tool. The portal is designed to enhance patient-physician communication.

Privacy and Security

The web portal is a secure connection that uses encryption. To help us insure this remains secure, we ask that you provide us with a valid email address and show your photo ID. University Surgical Associates will not share your email address. Please notify the office with any changes to your email address.

Portal Policies and Limitations

- If you are experiencing a problem that you would like to discuss with your Physician, we encourage you to continue to contact the office directly
- **The portal is for non-emergent communication. If you have an emergency please call 911**

Portal Functions

The patient portal is designed to enhance patient-physician communication. From this portal you can:

- Have ability to view online, download and transmit your health information
- Obtain lab results
- View your visit summary
- View your appointment history
- Send your provider a message
- Send questions to the billing office
- Forward your visit summary to your Primary Care Physician through direct messaging

Accessing the Patient Portal

You will receive your user ID in the office with instructions on how to set up your account. To access the portal website enter: <http://www.usasurg.org/PatientInformation/PatientPortal.aspx>
For optimal results please use Google Chrome or Firefox as your browser.
